The little red pocket knife, with Cross & Shield emblem on the handle is an instantly recognizable symbol of our company. In a unique way, it conveys excellence in Swiss craftsmanship, and also the impressive expertise of more than 2,000 employees worldwide.

The principles by which we do business, are as relevant today as they were in 1897 when our company founder, Karl Elsener, developed the «Original Swiss Army Knife»: functionality, innovation, iconic design and uncompromising quality. Our commitment to these principles for more than 130 years has allowed us to develop products that are not only extraordinary in design and quality, but also in their ability to serve as reliable companions on life’s adventures, both great and small.

Today, the full range of Victorinox knives is comprised of over 1,200 models. The range is presented in two, separate catalogs: «Swiss Army Knives» and «Household and Professional Knives». We are pleased to offer this streamlined assortment, with our best, and perhaps future classics.

SIZING CHART
SCALE 1:1
**SWISS QUALITY**

A product can be classified as «Swiss Made» if at least 60% of production costs are incurred in Switzerland.

The knives and tools produced by Victorinox are manufactured entirely in Ibach-Schwyz and Delémont. They are thus «Swiss Made» and this is shown on the blade or packaging.

**CATALOG NOTES**

The product information within the paragraphs refer only to the image depicted. All available product variations are listed next to the product image; color swatch, item number, EAN code and comments if applicable.

The «New» icon appears below the product information or next to the EAN code.

**«NEW» ICON**

Products launched in 2015 and 2016 as well as standard items not previously included in the catalog are labeled with the «New» Icon.
Scale colors and types

Pocket knives are usually produced with red cellidor scales featuring the Victorinox emblem. Other colors or types of scales are denoted after the 5th-digit of the item number:

<table>
<thead>
<tr>
<th>Item Number</th>
<th>Scale Color/Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.6795.XLT</td>
<td>Extra large for collectors</td>
</tr>
</tbody>
</table>

Abbreviations before the item number

- A.6140: replacement parts
- C.7100.T: replacement scales and knife cases

Structure within the item number

The 5th-digit of the item number denotes:

- 1.3601: without ring, tweezers and toothpick
- 1.3601.3: + mini screwdriver
- 1.3602: with tweezers and toothpick
- 1.3602.4: + pressurized ballpoint pen

Abbreviations after the item number

- 0.3705.XLT: Traveller-functions
- 0.6223.01: blister
- 0.9333.S: two-component scales
- 1.3601.114: anniversary edition
- 3.0223.L: with leather pouch
- 3.0223.N: with Nylon pouch
- 6.6223.11501: limited edition
- 2.3583.5E: lock blade
- 0.6222.T: transparent or translucent scales
- 0.8413.M3: one-handed blade for military, fire service paramedics, police

Product Name Abbreviations

- SWISS TOOL SPIRIT XC: blade with wavy edge, without pointed tip
- MY FIRST VICTORINOX H: wood saw
- EVOLUTION S: lock blade, straight edge
- CLASSIC SD: screwdriver
- PIONEER X: scissors
STAINLESS STEEL

All pocket knife components (excluding rivets) are made from martensitic stainless steel. Making a blade that offers optimum functionality and durability requires the right steel alloy. The steel must ensure excellent edge retention and sufficient resistance to rust, but should also be flexible so that it does not break during use.

The following steel alloys are used for Swiss Army Knives:

<table>
<thead>

</tbody>
</table>

All Victorinox alloys are in accordance with Regulation (EG) no. 1935/2004 for products that come into contact with food.

SUSTAINABILITY

Since decades, issues concerning environmental protection and sustainability have been given high priority at Victorinox.

SCALE MATERIALS

Cellidor

Cellidor is an organic, thermoplastic cellulose ester that incorporates a high proportion of renewable natural cellulose material. Unlike traditional plastics, it is only partially dependent on fossil fuels. Components made of Cellidor exhibit an exceptional high-gloss finish with perfect depth effect. To improve abrasion and scratch-resistance, scales printed with a special promotional motif are treated with a protective coating. Max. usable temperature 65 °C.

Acrylonitrile butadiene styrene

Acrylonitrile butadiene styrene is an amorphous thermoplastic. ABS plastics exhibit excellent toughness, notched impact strength, impact strength, flexural rigidity and surface hardness. Max. usable temperature 80 °C.

Polyamide

Nylon is a term commonly used primarily in the U.S. to describe polyamides (PA). Polyamides are suitable for pocket knife scales because they exhibit better mechanical abrasion resistance. This also has benefits from a production perspective. Compared to high-gloss and smooth Cellidor components, they have a more structured surface. Max. usable temperature 90 °C.

Aluminium

Alloy scales are punched from aluminum, embossed and then anodised in a subsequent process stage. The Eloxal process uses anodic oxidation to create a protective layer. This layer of oxide is hard and protects the scales from damage and corrosion, up to a certain degree.

Walnut

Wood is a natural, renewable resource. The walnut used by Victorinox comes from Swiss forests and is in full compliance with EU Regulation No. 995/2010 (the EU Timber Regulation). The wood of the walnut tree is very solid, tough and strong.
Packaging

There are two types of packaging for pocket knives: standard packaging and blister packaging.

Packaging variation

Sales unit (quantity*)

We recommend to order sales units.

There are two types of packaging for pocket knives: standard packaging and blister packaging.

Standard packaging (S)
The following options apply to standard packaging: folded box, slide gift box and loose products.

Blister (B)
Blister packed products are denoted with «B1» at the end of the item number.

33. mini screwdriver

Be a step ahead in every situation with the Swiss Champ. The top model among the «Officers Knives» combines 33 high quality tools with an award-winning design. It is made of 64 individual parts and requires an astonishing 450 steps of fabrication in North-Switzerland.
Our smallest models are practical, light and discreet – whether in your pocket or attached to your keys – making them the perfect companion for everyday life. These high-quality pocket knives are built for years of use, with specially alloyed and hardened blades that ensure the stainless steel tool edges retain their sharpness and are always ready to use.

Thanks to a range of attractive designs and a wide variety of carefully chosen tool combinations, there’s a friend for life for everyone among the small Victorinox pocket knives.

VICTORINOX | SWISS ARMY KNIVES
It’s time to meet the Swiss Card Classic, Lite and Nailcare series. Packed with useful tools, a Swiss Card is the same size as a credit card, just a little thicker – and no matter how much you use it, there’s no risk of going overdrawn! It also fits perfectly into the card slots in regular wallets and billfolds so you can take it with you wherever you go. And if you prefer to carry your Swiss Card in your purse or jacket, we also offer a range of pouches in practical imitation leather or especially elegant genuine leather.

Victorinox founder Karl Elsener patented his elegant, lightweight and exceptionally versatile «Officer’s and Sports Knife» on July 12, 1897. Today, the iconic Officer’s Knife is now exhibited in museums all over the world, including New York’s Museum of Modern Art and the International Design Museum in Munich, Germany. The Original Swiss Army Knife has become an established classic – synonymous with creativity, functionality and of course unparalleled Swiss quality.

**NEW MEDIUM POCKET KNIVES**
If you're looking for that little bit extra, our large pocket knives should be your first port of call. Produced with exceptional attention to safety, functionality and robustness, all the models in this range incorporate design features that make them safer to use – above all, the reliable locking mechanism for the sharp main blade. The thickness of the individual tools and the rivet joints also make the knives even more stable, while the ergonomically designed Nylon scales make sure you always have a firm hold on your pocket knife.

111 mm Workman / 130 mm Ranger / 130 mm Hunter Pro

LARGE POCKET KNIVES
Ask anyone who’s ever gotten out of a sticky situation thanks to a multi-tool of this kind, or anyone who has come to appreciate their precision, versatility and stability in everyday life – they wouldn’t be without them. These are the most robust tools currently available in the Victorinox range – the exceptionally powerful Swiss Tool, and its younger and slightly handier brother, Swiss Tool Spirit.

With strong, ergonomically designed handles made of finely polished, easy-care stainless steel, these solidly built all-rounders are exceptionally satisfying to use.
**SWISS TOOLS**

**Swiss Tool Spirit with Liner Lock System (105 mm, 205 g)**

### SWISS TOOL SPIRIT X

When it comes to growing, grafting and looking after fruit trees and ornamental plants, there are no high-tech shortcuts that can match a sharp, top-quality tool. After all, success largely depends on making precise and expertly executed cuts – that’s the only way to minimize damage to the plants. It’s no surprise then that Victorinox knives have been the top choice for professionals in garden centers and tree nurseries all over the world for decades.

144  VICTORINOX  |  SWISS ARMY KNIVES

145
Dani Arnold became well known primarily for his speed record for climbing the Eiger North Face in 2011. He completed the solo ascent of the wall in 2 hours and 28 minutes. Later, he took part in the first winter ascent of the Torre Egger in Patagonia. Further successes took place in Alaska, China and Pakistan.

Top athletes represent the Victorinox brand and accomplish their peak performance with our knives and tools.

Dani Arnold
Extreme Mountaineer and Mountain Guide

www.daniarnold.ch
MULTI-TOOLS

For dirty and sticky blades, we recommend opening and closing the blades several times in warm water until they move freely. Allow to dry completely. Add a drop of oil between the blades and the tool casing or springs as well as other friction surfaces.

Multi-tools should never be cleaned in a dishwasher.

We recommend:
Multi-Tool oil (item number 4.3301)

Key features:
- Maintains tool mechanics
- Protects against corrosion
- Meets NSF H1 requirements

HOUSEHOLD AND PROFESSIONAL KNIVES

Victorinox recommends rinsing knives under running water directly after use. Salt or acidic leftovers can lead to spotting if the knife is left uncleansed over longer periods of time. Knives that are dishwasher safe are marked with the corresponding icon within the catalog.

VICTORINOX WARRANTY

Victorinox AG guarantees all knives and tools to be of first class stainless steel and also guarantees a lifetime against any defects in material and workmanship (save for electronic components 2 years).

Damage caused by normal wear and tear, misuse or abuse are not covered by this guarantee.

If you are from Germany, Austria, Belgium or Luxembourg, please contact your local dealer or send us your tool, well packed, directly to our repair department:

VICTORINOX AG
Auslieferungsstelle
Reparatur-Abteilung
Alfred-Nobel-Strasse 5
DE-79761 Waldshut-Tiengen

If you are NOT from Switzerland, Germany, Austria, Belgium or Luxembourg, please contact a local Victorinox representative or local dealer. They will be glad to assist you.

A service charge may apply for repairs and services that are not covered by the warranty.

Our standard warranty repair includes replacement of parts that are broken, bent or suffer from general wear and tear. All other parts will be polished.

If there are tool parts of sentimental value, that you do not want replaced or if you wish for a part or parts to be returned, please state this in written form.

If you are from Switzerland, please contact your local retailer or send us your tool, well packed, directly to our repair department:
