There are nine rules you need to know.

1. When you carve, you sit!
2. I carve away from my body!!
3. When you carve, keep it at arm’s length.
4. Only carve with a sharp blade! (Blunt blades are dangerous! You’re more likely to slip quicker with more pressure on the blade).
5. Only open one tool at a time!!!
#6
STOW YOUR KNIFE IF YOU'RE NOT USING IT!
