Blade, nail file, screwdriver, scissors, tweezers, toothpick and key ring. – Our Classics combine the seven most used tools from Victorinox. On the keychain or in your pocket they are always at hand. The most successful of our small pocket knives is available in various colors and many attractive designs.

VERSATILE
FUNCTIONAL
COLORFUL

FOR LITTLE ONES, FOR BIG ONES, FOR EVERYDAYS ADVENTURES, FOR FORTUNE SEEKERS, FOR COLLECTORS, FOR SMALL EMERGENCIES, FOR HEROES, BUT NOT FOR COCONUTS ... OUR LITTLE ONES ARE FUN FOR EVERYONE.
The Original Swiss Army Knife

Victorinox founder Karl Elsener patented his elegant, lightweight and exceptionally versatile «Officer's and Sports Knife» on July 12, 1897. Since then, we have already produced – almost unchanged in the idea – over 500 million pocket knives. The Original Swiss Army Knife has become an established classic – synonymous with creativity, functionality and of course unparalleled Swiss quality.

FOR OFFICERS AND GENTLEMEN — THE ORIGINAL SWISS ARMY KNIFE SINCE 1897

The Swiss Army Knife became known all over the world, when U.S. soldiers, stationed in Europe, bought it in large quantities and it began to be a popular souvenir to take home.
MEDIUM POCKET KNIVES

The top model SwissChamp among the «Officer's Knives» contains 33 high quality functions, it is made of 64 individual parts and requires an astonishing 450 steps of fabrication in Ibach, Switzerland.

INNOVATION, DESIGN AND LIMITED EDITIONS

Where style meets sustainability

Alox
A commitment to durability, strength and engineering
Our large pocket knives are produced with exceptional attention to safety, functionality and robustness. All the models in this range incorporate design features that make them safer to use – above all, the reliable locking mechanism for the main blade. The thickness of the individual tools and the rivet joints also make the knives even more stable, while the ergonomically designed scales make sure you always have a firm hold on your pocket knife.
WHEN SECONDS COUNT!
INDISPENSABLE FOR ANY EMERGENCY

Key features, main arguments!
The Victorinox Rescue Tool was developed and perfected over 5-years in close collaboration with rescue- and safety services. A functional window breaker, an effective, well tested shatterproof glass saw and a practical seatbelt cutter are ready for use within seconds and can be used with and without gloves. A professional tool for the Army, Police, Firebrigade, Rescue- and Security services.

Standard set:
Rescue Tool with Nylon Belt Pouch
Ask anyone who’s ever gotten out of a sticky situation thanks to a multi-tool of this kind or anyone who has come to appreciate their precision, versatility and stability in everyday life – they wouldn’t be without them. These are the most robust tools currently available in the Victorinox range – the exceptionally powerful SwissTool and its younger and slightly handier brother, the SwissTool Spirit. With strong, ergonomically designed handles made of finely polished, easy-care stainless steel, these solidly built all-rounders are exceptionally satisfying to use.
Our «Rubis» manufacturer is a reliable and experienced partner. Due to this successful collaboration that we have enjoyed for years, we are able to offer a range of finely crafted precision instruments. Stainless, classical and Swiss Made.

It’s time to meet the SwissCard Classic, Lite and Nailcare series. Packed with useful tools, a SwissCard has the same size as a credit card and it fits perfectly into the card slots in regular wallets and billfolds.

Our «Rubis» manufacturer is a reliable and experienced partner. Due to this successful collaboration that we have enjoyed for years, we are able to offer a range of finely crafted precision instruments. Stainless, classical and Swiss Made.
When it comes to growing, grafting and looking after fruit trees and ornamental plants, there are no high-tech shortcuts that can match a sharp, top-quality tool. After all, success largely depends on making precise and expertly executed cuts – that’s the only way to minimize damage to the plants. It’s no surprise then that Victorinox knives have been the top choice for professionals in garden centers and tree nurseries all over the world for decades.
Dani Arnold became well known primarily for his speed record for climbing the Eiger North Face in 2011. He completed the solo ascent of the wall in 2 hours and 28 minutes. Later, he took part in the first winter ascent of the Torre Egger in Patagonia. Further successes took place in Alaska, China and Pakistan. Top athletes represent the Victorinox brand and accomplish their peak performance with our knives and tools.
SWISS QUALITY

A product can be classified as «Swiss Made» if at least 60% of production costs are incurred in Switzerland.

The knives and tools produced by Victorinox are manufactured entirely in Ibach-Schwyz and Delémont. They are thus «Swiss Made» and this is shown on the blade or packaging.

... TO LAST THEM FOR A LONG TIME

Here you go:
For dirty and sticky blades, we recommend opening and closing the blades several times in warm water until they move freely. Allow to dry completely.

Add a drop of Multi-Tool Oil between the blades and the tool casing or springs as well as other friction surfaces. Multi-tools should never be cleaned in a dishwasher.

Maintain tool mechanics, protects against corrosion, meets NSF H1 requirements.
High-precision processing of steel is the core competence at the Victorinox production facilities in Switzerland. This is evidenced not only in the world-famous pocket knives but also the exclusive range of cutlery for professional chefs, butchers and private households. Ergonomics and ease of handling are the underlying criteria for this range of products and are always combined with the renowned Victorinox quality. The assortment of household and professional knives covers a broad range of requirements and now includes 550 models.
